PRODUCT CHANGE NOTIFICATION (PCN)

PCN Number: 01/2019
Title: Improved color presets for acA5472-5gc
Product Family: ace U GigE
Release date: January 11, 2019
Contact: Basler Support
Type of Change: [ ] Miscellaneous [ ] Firmware [ ] PC Software [ ] Product design [ ] Process

Reason for Change
To provide our customers the best color images we always try to improve our cameras. In this case we changed the color presets in the color matrix that are measured in our laboratories with exemplary light settings to reduce the color error.

Change Description
By changing the values in the color matrix it was possible to reduce the color error DeltaE00 from 6.13 to 2.37. This results in better colors if you compare them on the color checker.
